🏠 Eastern & Oriental Hotel Penang : Superb Hotel to Stay

February 16, 2020 By [StrawberY Gal](#) - [Hotel, Hotel Review](#) — [Leave a Comment](#)

It is always a pleasure staying in Eastern & Oriental Hotel. The hotel comes completely beautiful with the historical touch in it. Established by the famed Sarkies brothers in 1885 whose architectural landmarks include the Raffles Hotel in Singapore, the E&O is the only seafront hotel in the George Town UNESCO World Heritage Site. Over its 135-year history, the E&O Hotel has played host to the world's most celebrated artists, writers and heads of state.

And recently, E&O Hotel unveiled its newly refurbished Heritage Wing with 100 quintessentially suites with city view and also sea view. Maintaining its historical grandeur, key elements such as the echo dome, which has become part of the E&O's identity is maintained while upgrading works were carried out to offer better hospitality experience for guests. The newly refurbished suites now feature a brighter concept with more natural light and a softer colour scheme while retaining the signature twin vanities and long bath.

Our bags is being arranged by the staff where they will bring them to our room in minutes. We are then led to our rooms and explaining the facilities including the pool, gym and also where can we have our breakfast too. Well-explained and guided to our room with the explanation of the facilities in the room too which makes it "just like home" to us.

The beautiful heritage room which comes with the wooden floor, and the room completed with a chandelier and a nice comfort bed which makes me feel like home. The bed comes simply fluffy with the beautiful soft bed. Such an indulgence.

Overlooking the sea view which is so mesmerizing, the room comes with the relaxing living room which is beautifully decorated with orchid.
